O: THOMAS SHEEHAN
PA DER (215) 631-2420

FROM: BILL WALSH
RCRA COMPLIANCE

DATE 5/9/92
TIME 3:15

SUBJECT

follow-up on 7/23/81 + 9/17/81 inspections of Stanley, Flagg & Co. (PAD 00 173 7399)

SUMMARY OF COMMUNICATION

I asked Mr. Sheehan if Stanley Flagg had come into compliance. He stated that the problem at the site concerned whether certain waste streams were indeed hazardous. After testing, the facility found that the wastes were not hazardous. He said that DER's Water Quality people had issued a Consent Order to the company concerning their non-hazardous lagoons. He added that they do generate hazardous wastes but these are properly contained + shipped off site.

Re: Hazardous Waste Inspection of the
Facility in West Pottsgrove Township
on July 23, 1981 and September 17, 1981

Dear Mr. Aldred:

This letter is to confirm the findings of the Department's referenced inspection of your hazardous waste activities. Requirements for hazardous waste facilities are contained in Chapters 75.250 through 75.267 of the Rules and Regulations of the Department. Violations of applicable sections of these regulations found during our inspection are as follows:

Each of the waste streams coming out of your facility that empty into the "Acid Waste Pit" need to be evaluated individually per 75.261 to determine if any of these wastes are hazardous. Presently there is insufficient data to evaluate these waste streams.

You are hereby notified of both the existence of these violations as well as the need to provide for their prompt correction. Toward this end, you are to submit to the Department within fourteen (14) days a proposed program and schedule for abatement of these violations. The Department's inspection report contains time periods of completion of remedial actions. These reports are either enclosed or have been previously supplied to you. If your proposed abatement program indicates certain corrections cannot be completed within these time periods, you are requested to supply justification for any extensions.

If you have any questions concerning this matter, please feel free to contact me at 631-2420.

Very truly yours,

THOMAS SHERMAN
Solid Waste Specialist
